

PROFI PREP - PP

Application

Perfectly suited for preparing surfaces for painting. The product cleans, de-greases, removes nicotine and makes the surface anti-static. Also suitable as a total cleaner for practically any surface.

Special advantages

No need to wash after application. The excellent effect and unique properties make this the most practical cleaning agent on the market. Does not foam!

Dilution

With water max. 1:100. Material can be cleaned with water.

Processing

With sponge, cloth or brush. Do not process below 6°C.

Drying time

Dependent on temperature and humidity.

Efficiency

Approx. 10 – 100 m²/ltr, depending of dilution, the substrate and the contamination.

Colour

Blue, dries colorless.

Package

Carton a 4x5 ltr jerrycan
Carton a 6x500 ml spray
